

Present your products and services as an exhibitor!

12th International Symposium on Release of Radioactive Materials from Regulatory Control

Provisions for Clearance and Exemption

As experts from many countries are interested in the implementation requirements of the projected regulations for exemption and clearance, TÜV NORD has decided to organize a symposium, which is intended to take place on **14th – 17th November 2022** in the Crowne Plaza Congress Hotel in Frankfurt.

The symposium will include an industrial exhibition. Would you like to present your products and services as an exhibitor? Take advantage of the opportunity to position your business between high-profile speakers and international industry experts. Please note in advance that the exhibition area is limited.

The conference language is English. Further information can be found on the internet: www.tuev-nord.de/tk-rrm
